Creativity

## PERSONAL PROJECTS

### Spotify Clone

- Spotify Clone is a web app developed using HTML, CSS, and JavaScript.
- It recreates Spotify's interface and features, allowing users to browse, search, and play songs, create playlists, and discover new music.
- Responsive design ensures a seamless experience on any device.

### Chess

- This Chess project is a web-based application built using HTML, CSS, and JavaScript.
- The game features a fully functional chessboard where two players can engage in a classic game of chess.
- The interface is designed with HTML and styled using CsS to provide a visually appealing and intuitive experience. The game logic, including move validation, turn management, and check/checkmate detection, is implemented in JavaScript.
